Forecast for Wednesday 11 May 2022

Weather: Mostly cloudy early morning with showers, these wintry over the higher summits. The cloud lifting and breaking during the morning with bright spells and occasional showers, the showers possibly heavy and wintry over the summits. Feeling cold at height in the strong winds.

Chance of cloud-free hill tops above 800m: 30% early morning, becoming 70% by afternoon.

Low Cloud and visibility: Extensive cloud, base around 600m early morning, this lifting and breaking near or above the summits by afternoon. Visibility poor or very poor at first at height, soon becoming very good except in showers and patchy summit cloud.

Met Office Aberdeen Meteorologist's View
Small risk of showers being thundery during the afternoon and evening.

Forecast for Thursday 12 May 2022
Weather: Partly cloudy with the chance of a shower overnight. Any early brightness will soon fade to leave a cloudy day with outbreaks of rain, the rain turning heavy and persistent through the afternoon and evening and occasionally wintry over the highest summits. Feeling cold in the strong to gale force southwest winds.

Maximum wind: West or Southwest 25 to 35mph, gusting 50mph over the summits.

Chance of cloud-free hill tops above 800m: 70% lowering to 20% by the end of the afternoon.

Low Cloud and visibility: Occasional or extensive cloud, base around the summits, lowering 600 to 900m during daylight hours. Visibility mainly good or very good at first, becoming moderate or poor in rain and occasionally very poor over the summits.

Temperature: **Glens:** Plus 7 Celsius rising to 12 Celsius
At 800m: Plus 2 to 4 Celsius
Freezing level: Near or above the highest summits.
